

Desk Dividers

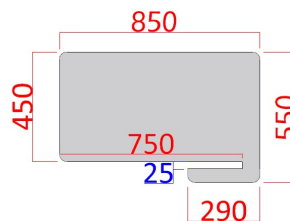

The Divi desk dividing screens are a stunning new take on the traditional privacy screen. These screens simply slide on to the desks, making them perfect for existing office furniture fitouts and retrofitting. These screens are made from bonded Hush panels and are available in either 18mm or 24mm thickness.

As with Hush, the panel has rounded corners, and are custom cut for each order to suit any desk. Hush is a lightweight and semi-rigid panel with excellent sound absorbing properties.

Redefine your environment; controlling reverberated noise can create an ideal and productive environment for offices, schools and more.
